PARTS REQUIRED:

Qty.	Part No.	Description
AR	04897840AA	Cleaner, Total Clean **All Other Markets**
AR	04897840EA	Cleaner, Total Clean European Markets
AR	05127532AA	Cleaner, Multi-Purpose

DISCUSSION:

The premium cloth upholstery in the vehicles listed is the new YES Essentials® stain, odor, & static resistant fabric. YES Essentials® fabric is an easy-care material that repels and releases soil to maintain the like-new appearance. Spills remain on the surface of the fabric to allow for easy clean up and to prevent stains and odors. The material is antimicrobial and static resistant.

YES Essentials® fabric may be cleaned in the following manner:

- Do **NOT** use any **solvents** or **fabric protectants** on Yes Essentials® fabric.
- Remove as much of the stain as possible by blotting with a clean, dry towel.
- Blot any remaining stain with a clean, damp towel.
- For tough stains, apply Mopar® Total Clean, p/n 04897840AA, or a mild soap solution to a clean damp cloth and remove the stain. Use a fresh, damp towel to remove the soap residue.
- For grease stains, apply Mopar® Multi-purpose Cleaner, p/n 05127532AA, to a clean, damp cloth and remove the stain. Use a fresh, damp towel to remove the soap residue.

CAUTION: YES Essentials® stain, odor, & static resistant fabric is NOT compatible with aftermarket fabric-protecting coatings. Any additional protection will damage the performance of the YES Essentials® stain, odor, & static resistant fabric.
